

# MAILCREDIT FOR OPTIMAIL 30

## Installing MailCredit

- Connect MailCredit cable from the CentorMail MAX to the PC; required items (*same cables for MailOne 1.0*):
  - Item # 22124S (9-Pin Serial Cable)
  - Item # UC232S (USB-Serial Converter)
- Install MailCredit via <http://www.fp-usa.com/mailcredit/> on your PC
- Confirm MailCredit is connected (*you will notice the icon on your PC toolbar*):  Connected  Not Connected
- If MailCredit is not connected, double click  icon on your PC

## Configuring OptiMail 30 for MailCredit

- Press the  button on your OptiMail 30
- Arrow down two times and select MODEM AND TELEPHONE NUMBERS → SET MODEM PARAMETERS → CONTINUE → GSM Modem
- (DO NOT ENTER A PIN), Press “SAVE”

Please note: MailCredit requires Windows 7, Windows XP, or Windows Vista operating system in order to operate successfully (Windows 8 and Mac environments will not work).
